

EVENT BROCHURE

CORPORATE SPEEDDATES

THE CONCEPT

CORPORATE SPEEDDATES

Six companies meet with 40-50 students, rotating in small groups every 20 minutes. This setup allows companies to introduce themselves, answer questions, and connect with future hires. The event is held in exclusive venues featuring gourmet food and drinks. Participating offers companies the chance to meet motivated, talented students and showcase their brand. This format encourages meaningful, one-on-one conversations that build genuine connections, enabling companies to identify candidates who align with their culture and values—ultimately supporting long-term talent retention.

ACADEMIC FOCUS

The Corporate Speeddates event will welcome Master's students with a focus on finance and business from top institutions, including KU Leuven (Campus Brussels), Solvay, VUB, and Vlerick Business School.

- **Business Engineering:** A mix of engineering, economics, and management, with focus areas such as supply chain, sustainability, and finance — suited for roles in complex organizations.
- **Business Administration & Management:** A broad business education covering finance, general management, and economics — a strong foundation for generalist or consulting careers.
- **Vlerick Master in Financial Management:** Specialized training in financial markets, M&A, risk, and financial modeling — ideal for future financial decision-makers.
- **Applied Economic Sciences:** Rigorous analytical training focused on markets, policy, and quantitative methods — well-suited for data-driven roles in finance, consulting, or research.
